

# BULLSEYE

Bullseye offers an excellent selection of hand-rolled opalescents and cathedrals in many.. Sheet size measures approximately 20" x 35 for the 3mm standard thickness glass and approximately 17" x 20" for the 2mm thins. Iridescent colors are only available in (-31) Dbl. Roll.

## CODING SYSTEM

Each style of Bullseye glass bears a 6-digit code number. The first 4 digits indicate the base glass:

**0XXX** SOLID OPAL

**1XXX** TRANSPARENT CATHEDRALS

**2XXX** 2-COLOR STREAKY

**3XXX** 3-COLOR STREAKY

**4XXX** FRACTURE &/or STREAMER

The second 2 digits indicate surface treatment, profile, thickness

**-00** Single Rolled 3mm

**-31** Double Rolled Irid

**-46** 3mm Accordion Irid

**-54** 2mm Reeded Irid

**-12** w/ Patterned Irid

**-37** dbl.Rolled W/Silver Irid

**-47** 3mm Prismatic

**-55** 2mm Accordion

**-21** Soft Ripple

**-38** Dbl. Rolled w/Gold Irid

**-48** 3mm Prismatic Irid

**-56** 2mm Accrdn.Irid

**-22** Herringbone Ripple

**-43** 3mm Reeded

**-50** 2mm Thin Rolled

**-57** 2mm w/ silver Irid

**-24** Soft Ripple w/Rainbow Irid

**-44** 3mm Reeded Irid

**-51** 2mm Thin Rolled Irid

**-58** 2mm w/ Gold Irid

**-25** Herringbone Ripple Irid

**-45** 3mm Accordion

**-53** 2mm Reeded

**-60** 6mm Double Rolled

**-30** Double Rolled

# BULLSEYE

## TRANSPARENT CATHEDRALS & IRIDESCENT 3MM & 2MM

The subtle texture of Bullseye's cathedrals makes them a good choice for applications where maximum light but minimum visibility is desired. The 1400 series of light tints offers an exciting range of possibilities both to the fuser working with color layering and to the designer looking for cathedrals coordinated to contemporary pastel color schemes. Tested compatible (00F) are single rolled, or (30F) double rolled. (31F) are double rolled iridescent (50F) are 1.6mm and (51F) are 2mm Iridescent. **PRICE CODE M/P MEANS MARKET PRICE.**

# BULLSEYE

## SOLID COLOR OPALESCENTS

Bullseye's opalescent glasses are characterized by a tightly mottled quality of transmission known as "Catspaw". Slight variations in shade and density are evidence of the unique handcast nature of production and impart a vitality to this glass unequalled by machine rolled products. **M/P=MARKET PRICE.**

## RACK PACKS

### Catalog # OC-RP

A variety box of 12" x 12" sheets. Each one contains 80 sheets of glass, in 12-16 different colors, with no more than five sheets of any one color. At least 25% of the glass is premium-price product, including Hot Colors, Waterglass and Baroque. Both standard and T-glass are included.

# UROBOROS BY OCEANSIDE

Oceanside Glass Tile is the largest colored stained glass manufacturer in the world. The Uroboros brand is hand rolled method of production and has a beautiful Tiffany style colors range. All Uroboros products are COE 96 with the exception of the Ring Mottles and Spot Mottles. Sheet size is 24" x 24".

# KOKOMO

Kokomo Opalescent Glass Co. has been manufacturing art glass since 1888, producing an easy cutting glass with a diverse range of colors, densities and textures in clear and opalescent glass. Sheet size is 32" x 32" (7.11 sq.ft.).

## Explanation of Density Codes

*Example:* The number 11 (amber and opal) refers to the color of glass while the following letters refer to the color density.

11D	Very dense (diffuses light)
11MD	Medium dense (limited light transmission)
11	Medium (most common density)
11ML	Medium light (considerable light transmission)
11L	Light (wispy, nearly translucent)
11LL	Streaky

# YOUGHIOGHENY GLASS

Youghiogheny Stipple Glass is a true Tiffany representational lamp glass made with the same quality as Tiffany Glass. Stipple Glass has a very unique visual quality, diffusing light so that the hot spot, where the bulb is behind the glass, is almost unnoticeable. Because of the translucent quality of stipple glass, there is a three dimensional effect when other colors are streaked through the glass. In the manufacturing of stipple glass, colors added appear to tear raggedly through the glass rather than bleed and become muddy as in the case of traditional fluorine glasses.

## LITTLE BRAVE ARTISAN PACKS

Little Brave Artisan Packs are specifically designed for the unique projects of the elite glass artists. Each pack contains 12.5 square feet of hand selected glass including Stipple (SP), High Strike (HS) and Representational Glass (RG). That is 15 different 10" x 12" sheets. You will receive top quality, labeled production art glass in a manageable package weighing less than 30lbs. We have developed 4 different varieties of Artisan Packs. Glass for each pack will be pre-selected.

Catalog Number	Colors - Description
Y-AP1	Basic Essentials - A diverse mix of best sellers.
Y-AP2	Land Sea & Sky - Perfect for any background Including Blue, Beige, Green, Brown & Amber
Y-AP3	Floral Gardens - Create beautiful garden scenes with this colorful glass assortment,
Y-AP4	Exotics - Electric grouping of premium and most popular colors.

# OCEANA BY YOUGHIOGHENY

Oceans specializes in the manufacturing of this beautiful handmade art glass. Oceana mottles are soft with delicate wispy background. Each sheet contains varying degrees of density creating a stringy, 3D quality which is uniquely Oceana.

# TRUE DICHRO BY YOUGHIOGHENY

Youghiogheny's line of True Dichro is an extremely unique formula that depending on surrounding light, will change in color and opacity. The glass comes alive in assorted shades of Pinks, Purples, Blues and Yellows with transmitted and natural light. Each sheet of Youghiogheny's True Dichro is a work of art within it's self. Variations between sheets of the same color should be expected.
